

A. MOHAMED YASAR

FULL STACK ENGINEER | REACT.JS | PYTHON & DJANGO | AI VOICE SYSTEMS | REST APIS

Chennai, TN • +91-9025943184 • mohamedyasar081786@gmail.com • LinkedIn • Portfolio

PROFESSIONAL SUMMARY

Full Stack Engineer with 2.5+ years of experience building responsive web applications, real-time AI Voice portals, and RESTful APIs using React.js, Python (Django), Node.js, and Express.js. Proven expertise in integrating Twilio Voice & SMS services, Server-Sent Events (SSE) streaming, polymorphic databases (MySQL/SQLite), and automated deployment pipelines. Strong track record of optimizing application security and performance via SonarQube code quality audits and leveraging AI agent workflows (Antigravity, Gemini, Cursor) for high-speed development and root-cause bug resolution.

TECHNICAL SKILLS

Frontend: React.js, Redux, JavaScript (ES6+), HTML5, CSS3, Material UI, Glassmorphic UI, SSE

Database & Real-Time: MySQL, SQL Server, MongoDB, SQLite (WAL Mode), SSE Streaming, WebSockets

Telephony & Voice AI: Twilio API (Voice & SMS), WebRTC/Twilio Device, AI Voice Agent Integration

Code Quality & Security: SonarQube Audit, Memory Leak Optimization, WCAG Accessibility, Root Cause Analysis

Backend: Python (Django), Node.js, Express.js, REST APIs, Java (Core), Spring Boot

Tools & DevOps: Git, GitHub, Postman, CloudPanel, SSH, PowerShell, Bash, SonarQube, VS Code

AI Tools & Workflows: Gemini 3.6 Flash, Antigravity AI, Claude, Cursor, OpenAI Codex, Agentic Tooling

PROFESSIONAL EXPERIENCE

Infogon Pvt. Ltd.

May 2026 – Present

Freelance Full Stack Developer

Remote

- Developed and deployed the multimodal AI Voice Agent System ("Sarah") over low-latency WebSockets with Voice Activity Detection (VAD) and automated post-call AI transcript evaluators pushing QA scores to Zoho CRM (voice.infogon.com/infogon/dashboard).
- Architected and launched the production Twilio Dialer & Communication Suite (twiliodialer.infogon.com) with Django, dual-channel call recording, click-to-call, Zadarma SMS failover, and automated Zoho CRM/Books Deluge integrations.
- Conducted SonarQube security and code quality audits across core pipelines—resolving cognitive complexity, eliminating memory leaks (SQLite WAL mode & connection safety), and enforcing accessibility compliance.
- Led end-to-end development, deployment, and hosting of the Blog Administration Dashboard (blogadmin.infogon.com/dashboard), featuring a React.js frontend, Node.js API, dynamic Markdown guides, and automated image compression.
- Built and launched official corporate web portals (infogon.com, infogon.com.au, dev.infogon.com) from scratch with 20+ responsive views, SVG network animations, floating capsule headers, and Zoho CRM widgets.
- Engineered automated PowerShell and Bash deployment scripts (deploy.ps1, setup_server.sh) for server deployment via CloudPanel and SSH.
- Leveraged AI Agent tools (Antigravity AI, Gemini, Cursor) to accelerate code generation, automate testing scripts, and perform rapid root-cause isolation of critical production bugs.

Bytes and Binaries Software Solutions

July 2023 – March 2026

Software Engineer / Frontend Developer

Pudukkottai, TN

- Built 20+ reusable, responsive UI components using React.js and Material UI, achieving consistent UI across all application modules.
- Integrated 15+ frontend modules with backend REST APIs, handling complex data flows and edge case validations.
- Wrote and optimized SQL queries for data validation, issue analysis, and performance troubleshooting — cutting query resolution time by ~40%.
- Led investigation and resolution of 50+ UI, API, and database-related bugs — reducing post-release issues by ~30%.

PROJECT EXPERIENCE

Infogon AI Voice & Multimodal Agent Platform

Full Stack Engineer

Tech: Python, FastAPI, Google Gemini 2.5 Live API, WebSockets, Twilio Voice & SMS, Zoho CRM Integration, Docker

- Architected and deployed the multimodal AI Voice Agent ("Sarah") operating over low-latency PCM WebSockets with Voice Activity Detection (VAD) and telecom error handling (voice.infogon.com/infogon/dashboard).
- Built automated post-call AI transcript evaluation (QA scoring 1-10, structured pain point extraction) pushing JSON payloads directly to Zoho CRM webhooks.

PROJECT EXPERIENCE (CONTINUED)

Infogenvx Production Twilio Dialer & Multi-Channel Automation
Tech: Python, Django, Twilio Voice & SMS API, Zadarma API, Zoho CRM & Books (Deluge), MySQL, SQLite, PowerShell

Full Stack Engineer

- Engineered a production-grade Django web dialer (twilliodialer.infogenvx.com) featuring dual-channel call recording ('recording_channels="dual"'), click-to-dial, and Zadarma SMS failover.
- Developed daily multi-channel performance digest automation aggregating leads from Google Apps Script, Zoho Campaigns, Zoho Books, and call logs with custom Zoho Deluge scripts.

Infogenvx Blog Admin Portal & CMS
Tech: React.js, Node.js, Express.js, LocalStorage API, Image Compression, Web Hosting

Full Stack Developer

- Built and hosted custom blog admin portal (blogadmin.infogenvx.com/dashboard) supporting database-free blogging with dynamic CRUD actions, Markdown guides, and automatic table of contents generation.

Infogenvx Corporate Portals & Design System
Tech: React.js, Material UI, CSS3 (Flexbox/Grid), SVG Polygon Animation, Web Performance, SEO

Lead Frontend Developer

- Developed company corporate websites from scratch: infogenvx.com, infogenvx.com.au, and dev.infogenvx.com with 20+ responsive views and Zoho CRM widgets.

Job Planner / Job Management System
Tech: React.js, Redux, Material UI, REST APIs, MySQL

Full Stack Developer

- Built modular UI components, integrated backend APIs with data rendering, and resolved 30+ cross-layer issues spanning UI, APIs, and SQL databases.

MERN Stack Portfolio Application
Tech: MongoDB, Express.js, React.js, Node.js, Render CI/CD

Full Stack Developer

- Built and deployed a full-stack portfolio application with Express REST APIs, MongoDB storage, and Render deployment (mern-portfolio-yasar-1.onrender.com).

EDUCATION

Master of Computer Applications (MCA) M.I.E.T Arts and Science College, Tiruchirappalli	2025
Bachelor of Computer Applications (BCA) Jamal Mohamed College, Tiruchirappalli	2023

ADDITIONAL INFORMATION

Availability: Immediate Joiner

Work Mode: Work From Office | Rotational Shifts | Open to Relocation (Anywhere in Tamil Nadu)

Languages: English, Tamil

Soft Skills: Problem Solving, Analytical Thinking, Communication, Team Collaboration, Adaptability
